

## Spin-the-Dreidel Game

Children take turns spinning the dreidel while a timer is running. The dreidel that spins the longest wins. Then the children start over again.

## Another Dreidel Game

This is one variation of a dreidel game. You will need the dreidel and nuts for each child. First, each child puts one nut in the center of the table. Then, each player spins the top. When it stops, what letter is showing? To score:

nun—worth nothing

hay—player gets half the nuts

gimel—player wins all the nuts

shin—player must add a nut

gimel

hay

nun

shin
